

Lower Health Insurance Rate with Alternative Insurance

Doctors are now offering direct primary care as an [alternative to traditional health insurance in Riverton](#). Direct primary care memberships are available for unlimited visits per calendar month, and usually cost between \$25-\$85 per person. This is less expensive than traditional coverage. Some plans include routine lab tests and prescriptions. Are you looking for affordable healthcare? Are you willing to struggle to pay your monthly premiums for quality medical coverage? Every Riverton family must evaluate their health and decide if they want direct primary care.

Direct primary care does not accept any insurance. Doctors can provide care for as long as they need, as there are no restrictions from the company. Doctors can also communicate with patients outside regular office hours. This alternative healthcare model promotes transparency in pricing. The doctors can provide excellent care and inform you about the costs associated with any treatment that isn't covered by your alternative direct primary care membership.

Traditional hospitals have doctors who report to the insurance company what the patient needs in terms of medical assistance. While the health insurance company decides what is important, companies are not physicians and are not qualified to make these decisions. Who is going to make the decision about whether or not you can have a procedure performed? Your doctor but with regular insurance, the company representative will make the decision for your doctor. But, insurance companies are a business that cannot cover all services that a patient may need. This results in a disconnect between doctors, insurance companies, and patients. Riverton doctors want to give the best possible care to their patients, and this can be frustrating. This issue can be avoided by switching to another insurance.

Zenith Direct Care of Riverton has four membership options for primary care that are based on your age. Each member has unlimited visits with alternative coverage and is much less expensive than traditional insurance. For families who don't require the full coverage of monthly premiums, direct primary care may be an affordable option. Zenith Direct Care has three locations in Utah. Patients can speak to their primary care physician at any time they want, and for as little or as long as they need. In a hospital, patients can only talk to their doctor for 25 minutes. Direct primary care clinics do not accept insurance coverage payments. This means that doctors must consult with insurance companies to determine the best treatment for the patient. Direct primary care doctors provide care that is tailored to the needs of their patients. Direct primary care doctors don't allow insurance companies to dictate which tests and procedures patients may have. Doctors don't collaborate with insurance companies to decide on a treatment plan. This allows doctors to be completely focused on the patient and to give their best attention to their individual needs. zdirect.care has more information. Or call 801-676-66161.
